To
Whomsoever it may concern

Letter of Recommendation

Thanusha was selected to join Red Bull India's esteemed Wings Team program, while studying at Mount Carmel College, Bangalore and went on to work for a year and 9 months – November' 2017 – August' 2019.

Thanusha was quick to take the lead to not only build the brand within Karnataka, but also managed to conceptualize and utilize effectively the power of digital media, events and sales. She has an innate ability to get the job done and didn't hesitate in using unexplored platforms such as digital media to connect with consumers. She worked efficiently as a part of the planning team.

She has a curious mind and was quick to grab knowledge on our product and events globally. A noted team player, with a passion to share her knowledge with her peer group which made her an instant hit and a great addition to the team.

Her good command over English ensured that oral, written and business communication were clear to everyone in the team. She always had a productive attitude in whatever is needed to meet her individual and group targets.

Overall Thanusha displayed good results as an independent team member and a team player, when given the responsibility.

I highly recommend Thanusha and believe she will add value to any organization she works with. I wish her the very best in her future pursuit and believe she will get an opportunity to prove her due potential at your organization.

Regards,
